

YOUR HOME, YOUR RIGHT TO KNOW ABOUT THIRDHAND SMOKE

A survey of 1,820 California residents aged 18 to 81 from 41 different counties was conducted between February and March of 2021. The survey found that 96% of respondents want to know that there may be thirdhand smoke in their homes.

"I SHOULD BE TOLD IF THERE IS TOXIC TOBACCO SMOKE RESIDUE IN A HOME I AM BUYING OR RENTING."
